

BOTTERO

Bottero is one of our denser curtain fabrics on double width in the flameproof material Trevira CS. With a small structure and even colouring, it gives a smooth expression with a shimmering surface. Shades well when in need of sun protection and privacy.

Use the fabric's width as the curtain's width for the best drape and to avoid a visible folding mark.

This fabric is suitable when fire safety, ease of care and colour durability are priorities.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
