

PRATO

Prato is a semi-transparent fabric, 325 cm wide, made from flame-retardant polyester. The fabric has a smooth texture with a matte surface, giving it a cotton-like character. Some colours are mottled, with the warp and weft in two different tones, while others are evenly dyed.

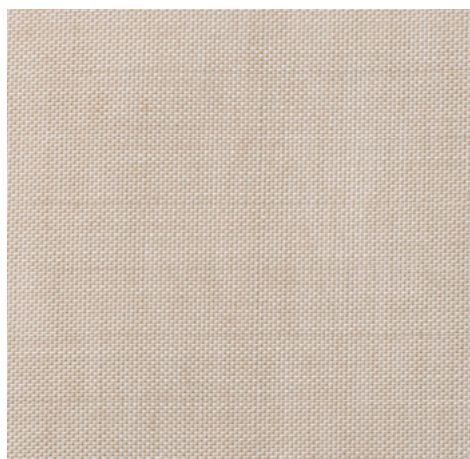

Prato is well-suited for large windows or glass sections where some degree of privacy is needed.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
