

FIRENZE

Firenze is an extra wide flameproof fabric in Polyester FR mixed with Viscos which gives the fabric a soft and flowing drape.

With a net-like and somewhat loose weave in coarse linen like threads, it is a fabric with a very natural expression that filters the light nicely. Matches with the denser version Ancona which also has the same natural expression.

This fabric may stretch depending on the structure and the weight of the fabric.

This fabric is suitable when fire safety, ease of care and colour durability are priorities.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
