

Stella Dimout used as lining for Savona.

STELLA DIMOUT

Stella is a flame-retardant dimout fabric in double width. The fabric is double woven with a black thread in the middle which gives the fabric its darkening properties. It has a soft drape with a smooth satin-like surface.

Fabrics with a dimout effect darkens the room and are most often used in bedrooms. Our dimout fabrics can be used as a curtain on its own or as a luxurious lining. Darker colours dims the most.

For best result use the width of the fabric as the width of the curtain.

This fabric is suitable when fire safety, ease of care and colour durability are priorities.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
