

DOROTEA RECYCLED

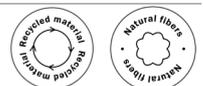

Dorotea is a soft twill-woven fabric in double width, produced in Italy. It features a weft made from wool spun from leftover wool fibers, combined with a linen warp. It is well suited for a relaxed yet elegant curtain that can gently rest on the floor, or why not for a lighter throw. A more transparent version is available in the colour-coordinated Paolina.

Characteristic for Dorotea and Paolina is that the recycled wool yarn has a beautiful melange effect. The fabric will differ from batch to batch, sometimes with a stronger melange effect from darker fibers.

For best result use the width of the fabric as the width of the curtain since the fabric will stretch more when turned. This article may stretch depending on the natural character of the wool fiber.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
