

ANCONA

Ancona is a 300 cm wide and dense flameproof fabric in Polyester FR mixed with Viscose.

With a matt and slightly coarser structure reminiscent of linen, the fabric gets a very natural look, the colours are soft and has a melange effect. Perfect if you need a fabric that is not transparent but still lets light through, for examples in offices with a need for privacy or for a natural feeling in an easy-care and flame-retardant material.

Colour matched with Firenze but also goes well with the more transparent California.

This fabric is suitable when fire safety, ease of care and colour durability are priorities.

Please be aware that screen colours, printer colours and fabric dye batches may vary.

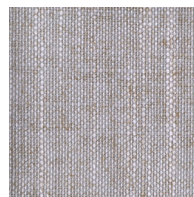

ARTICLE:	Ancona
BINDING:	Plain weave
DYEING:	Yarn dyed
MAIN USE:	Curtain, decoration
NUMBER OF COLOURS:	6
COMPOSITION:	95% Polyester FR 5% Viscose
WIDTH:	300 cm
