

ARLON

Arlon is made with 55% recycled Polyester FR yarn GRS. A sophisticated spinning process makes an intermingled double slub yarn with a natural linen look and dry hand feel. The subtle variation of colour in the warp and weft gives it a soft and neutral colour range which will suit any interior to create a calm and elegant atmosphere.

Arlon may stretch depending on the structure and weight of the fabric.

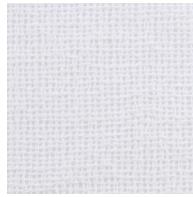

This fabric is suitable when fire safety, ease of care and colour durability are priorities.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
