## FASANO

Fasano is a linen and hemp fabric on double width, woven with satin binding that gives a dense and smooth surface. The fabric is yarn dyed, which with this binding and the light warp gives a two-sided fabric with a more colorful front side and a lighter reverse side.

Fasano, Molina and Varena are part of our collection with fabrics given a finishing wash we call "Mano della Nonna" (with grandmother's hand). The wash gives a smooth soft feeling, a beautiful drape and an evenly wrinkled texture. The irregularity of the linen yarn shows more and gives the fabric a special character. The artisanal washing gives the fabric a unique look and may vary from batch to batch. It also causes the selvages to wrinkle more than usual.

The fabric will stretch and/or contract depending on humidity and temperature. Use the width of the fabric as the width of the curtain for best results

Please be aware that screen colours, printer colours and fabric dye batches may vary.
