## **MILANO**

Milano is a patterned version of Valle, a very soft and dense wool satin on double width, with a matte and smooth surface and a fantastic drape, it becomes very elegant as curtains. The jacquard woven squares create a pattern that appears on both sides thus making it a two-faced fabric where one side gets a stronger colour and the other side gets inverted giving it a lighter tone. Fits just as well with a classic pleat band solution as on a wave system.

Use the width of the fabric as the width of the curtain for best results. This article will stretch and/or contract depending on humidity, dryness and the natural character of the wool fiber.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
