

LANGHE RECYCLED

Langhe is a structured and subtle striped semi-transparent fabrics on double width. The fabric is made in the flame-retardant material Trevira CS and up to 66% created of pre-consumer and post-consumer waste.

Langhe works excellently in large windows or glass sections where the need for sligth shielding exists.

This fabric is suitable when fire safety, ease of care and colour durability are priorities.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
