

OLIVIA RECYCLED

Olivia is a dense fabric on double width made in the flame-retardant material Trevira CS entirely created of pre-consumer and post-consumer waste. Matches in colours with our transparent Vittoria Recycled.

Vittoria works excellently in large windows or glass sections where the need for shielding exists.

This fabric is suitable when fire safety, ease of care and colour durability are priorities.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
