

VITTORIA RECYCLED

Vittoria is a voile on double width made in fine threads of the flame-retardant material Trevira CS entirely created of pre-consumer and post-consumer waste. Matches in colours with our dense Olivia Recycled.

Vittoria works excellently in large windows or glass sections where the need for shielding exists.

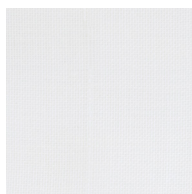

This fabric is suitable when fire safety, ease of care and colour durability are priorities.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
