

AOSTA

Aosta represent luxurious softness, embodying an elegant and voluminous quality in its double-width composition. Its textured surface and exquisite drape add to its allure. Woven with fine linen and alpaca wool threads, the interplay of these slender fibres, combined with the open weave, results in a semi-transparent fabric that exudes a captivating, structured character.

Aosta is part of our Wool Collection II. Together with Ceres, Gavi, Ovada, Piana and Sasello they make up our second collection of woolly fabrics in the finest quality.

Use the width of the fabric as the width of the curtain for best results. This article will stretch and/or contract depending on humidity, dryness, and the natural character of the fibre.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
