

BRERA

Brera is a wonderful linen and wool mix on double width, the fabric is developed from Torno into a diagonal pattern in a vibrant colour scheme. The bouclé thread forms a woolly stripe against the light linen warp. The fabric has a soft tactile feel and a strong graphic expression and makes it a real eye catcher as curtains or a blanket.

We have another version we call Brera Ombra, where the diagonal woolly stripe is almost tone on tone against the somewhat lighter linen warp.

This article may stretch depending on the natural character of the wool fiber. For best result use the width of the fabric as the width of the curtain. Please be aware that screen colours, printer colours and fabric dye batches may vary.
