

BRIENNO

Brienno is a thin sheer hemp fabric with very fine threads, it is woven with a sablé weave which creates a crisp semi-transparent fabric. Comes in a white and light beige. The colour of the yarns comes out through a gentle oxygen bleach of the natural colour of hemp.

Our collection of hemp fabrics are all woven in the weaving mill in the north of Italy. The yarn we use are spun into yarns in the area close by the factory but the source of the hemp fibres we use are produced in China. China has a long history of cultivating hemp for various uses, and hemp has been an important crop in Chinese agriculture for centuries.

This article may stretch depending on the natural character of the fiber.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
