

CERES

Ceres embodies softness, an ethereal lightness, and a lavish fluffiness within its double width. Its surface is intricately structured, and its drape is extraordinary soft. Woven from delicate threads of hemp, cotton, and wool, the airy interlacing of the weave results in a fabric that gives the impression of billowing veils of clouds.

Ceres is part of our Wool Collection II. Together with Aosta, Gavi, Ovada, Piana and Sasello they make up our second collection of woolly fabrics in the finest quality.

Use the width of the fabric as the width of the curtain for best results. This article will stretch and/or contract depending on humidity, dryness and the natural character of the fiber.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
