

## MOLTRASIO

Moltrasio is a double width hemp fabric woven in a sablé binding. The weft varies in thickness and creates a slightly crinkled surface. The colour of the yarns comes out through a gentle bleaching of the natural colour of hemp.

Our collection of hemp fabrics are all woven in the weaving mill in the north of Italy. The yarn we use are spun into yarns in the area close by the factory but the source of the hemp fibres we use are produced in China.

This article may stretch depending on the natural character of the fiber. The hemp fibre is naturally uneven with slubs appearing giving a rustic effect.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
