

## ORLANDO

Orlando marries rustic jute yarn with fine, soft hemp yarn resulting in a unique texture that is both sturdy and soft. The golden-brown hue of natural jute adds an intriguing surface character. Orlando with its 340 cm width offers a distinctive addition to any room.

Jute is a long, soft, shiny vegetable fibre that can be spun into coarse, strong threads. The process of extracting the fibre is similar to the one of linen and hemp. The jute yarn is uneven, with knots and slobbs that will be visible in the fabric.

For a soft drape you need to turn the fabric, use the width of the fabric as the height of the curtain.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
