

OSTUNI

Ostuni is created with jute and super soft wool yarn, resulting in a unique texture that is both sturdy and soft. The golden-brown hue of natural jute shows through the light wool yarns giving an intriguing surface.

Jute is a long, soft, shiny vegetable fibre that can be spun into coarse, strong threads. The process of extracting the fibre is similar to the one of linen and hemp. The jute yarn is uneven with knots and slobbs that will be visible in the fabric.

Use the width of the fabric as the width of the curtain for best drape.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
