

NEBBIOLO RECYCLED

Nebbiolo is an evolution of our semi-transparent fabric Nebbia. Like its predecessor, it is a double-width fabric featuring a fine stripe, woven with a slightly thicker thread. Its elegant aesthetic is paired with sustainability, as Nebbiolo is made from the flame-retardant material Trevira CS, primarily sourced from recycled content.

The foundation for Nebbiolo comes from our fabric Vittoria, but with a stripe in a bolder color tone. The fabric pairs beautifully with California, Vittoria, and Olivia, which are available in similar colour palettes, either matched with the stripe or the background.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
