

POSITANO RECYCLED

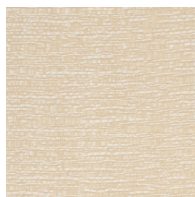

With its distinctive structure and melange expression, Positano Recycled is a fabric that brings depth and nuance to any interior. Its beautiful drape, soft touch, and inherent flame resistance make it a sustainable choice for many settings. Woven in Italy from more than half recycled Trevira CS fibres, sourced from both post-consumer and industrial waste. The fabric can be colour-matched with the satin weave Napolito.

Please be aware that screen colours, printer colours and fabric dye batches may vary.
