

Softness, a beautiful texture, double width and a pleasing weight make Superga a fabric that lends itself well to generous, flowing drapery and interior decoration. Its surface and structure evoke the character of natural fibres, giving a warm and tactile expression. Woven from flame-retardant polyester, Superga is well suited for interiors with fire-safety requirements, making it a versatile choice for both public and private spaces.

ARTICLE:	Superga
BINDING:	Plain weave
DYEING:	Piece dyed
MAIN USE:	Curtain, decoration
NUMBER OF COLOURS:	19
